# Robby Barnett

## Video Editor

With over 15 years of expertise in post-production, I've contributed to TV and digital platforms like Netflix, A&E, NBC, Snapchat, and Quibi. Notably, I've crafted engaging social content for esteemed brands like the Kardashians, MTV, and Warner Records. As Head of post-production, I leveraged my editing background to build a fully remote team and workflow, leading to the successful delivery of hundreds of projects for a growing tech startup. Driven by a deep passion for content creation and audience engagement, I thrive in collaborative environments that foster creativity and fulfillment.
